

COMPASSION

VS. INSENSITIVITY

Compassion is caring for ourselves and others and supporting people during times of need.

FeedMore wny

The act of compassion is demonstrated every day by **FeedMore WNY**'s dedicated volunteers, like the ones shown here who are helping to give out nutritious food at a FeedMore WNY mobile food distribution. By caring for others and performing simple acts of kindness - like volunteering - you can make a big impact in the community.
