

WHO IS JARED CAMPBELL?

Jared Campbell is an award winning singer/songwriter from upstate New York and has been traveling the country performing for thousands of people and hundreds of schools over the past decade. He's shared the stage with Jason Mraz, The Zac Brown Band and even Journey! His music has also been featured on MTV and he's been acknowledged by Billboard Magazine as one of the top independent musicians in the northeast. His main focus is allowing his music to impact the lives of his listeners by experiencing joy, finding comfort through pain, and looking past obstacles towards living a better life.

His songs are said to be uplifting, thought provoking and emotionally heartfelt. Jared mixes humor, stories of life on road and personal experience to relate to the audience set before him. Young people have walked away with life changing experiences such as finding their true passion in life, appreciating others around them and ceasing to bully those that are different, stopping their attempts at suicide and forming life lasting relationships with the friends and family surrounding them.

Jared Campbell's presentation is unlike any other assembly you will bring to your high school, middle school or elementary school. He reaches his audience through the power of music with songs he's written about some of the most crucial elements to living out your life with purpose. His message focuses on overcoming obstacles, anti-bullying, respect, leadership and having an amazing outlook on life.

JARED CAMPBELL PRESENTS

THE NIGHT MUSIC CHANGED THE WORLD

Jared Campbell has inspired and encouraged thousands of students through the power of music and now he wants to bring that same message to your community! "THE NIGHT THAT MUSIC CHANGED THE WORLD!" is a presentation geared towards the community as a whole inspiring parents, care takers, neighbors, and loved ones who support the students growing up in your home town.

This night is an event to see how the music has impacted the students of your community and will challenge and encourage the families that make up your school to stay plugged in and hold each other accountable to raise a powerful generation of young people that are passionate about life!

"Having Jared come to our school for our students was phenomenal. However, having him come back for the evening with the community was more powerful than I could have imagined. He captivated the audience and spread his message to the parents and community members in attendance. Months later parents are still coming up to me thanking me for having Jared come to Northville!"

ELEMENTARY SCHOOL

This show is split into two groups normally consisting of a K-2 show and a 3-5 show. The K-2 is 30 minutes in length and the 3-5 show is 40 minutes in length. Each show is specifically targeted to the age group consisting of songs that keep them engaged, singing along and reinforcing positive character building messages. Your students will walk away with these songs in their heart and more importantly, the message in their head. His primary goal is to encourage the students to walk away feeling "AWESOME" about themselves and understanding that everyone has value and we need to appreciate that day by day.

MIDDLE SCHOOL

Jared's middle school performance speaks right to the heart of the changing atmosphere that the students bring at that age. Learning valuable lessons at this age can make or break a student to become a person of character. Middle school is the perfect time to take a student that is still capable of being formed into something and driving them toward a positive influence. Jared's show will teach them the importance of being resilient in this changing time and learning to lean on one another as we make it through this world. The attention given to the aspects of bullying both inside and outside of school is brought about in a way you will see no where else.

HIGH SCHOOL

When bringing in a high school assembly the first thing you want to make sure of is that the presenter will connect with your students and most importantly leave them with something that can shape their future. Jared started speaking primarily in high schools and finds that this age group is one of the most important to reach. Elementary students always come ready to rock, middle school students still have time to be molded but so many times people give up on high school students thinking that "they are who they are". But Jared believes that students can change the trajectory of their lives by learning the power of focus. When you're a high school student everything around you tries to steal your focus. Students have so much on their plates these days that it's nice to have a voice come in and encourage and inspire when it's most needed.

School Counselor Whitehall High School

As a speaker, Jared captivates his audience of students and faculty with his energy and witty charm. But, it is the gift of his music that transcends a school assembly into an experience that affects the hearts and minds of students, faculty and community members who listen to his songs and stories about resilience, empowerment and hope in the face of their personal challenges.
