

OPTIMISM VS. PESSIMISM

Optimism is embracing a mindset of positivity and hopefulness that a situation will result favorably.

Luca was an avid sports fan and was able to participate and attend multiple sporting events, which was something that he did not take for granted. Weeks prior to his untimely passing, Luca asked his father that if they won the lottery, could they set up a foundation to help other kids to do the things that he so greatly enjoyed.

The Luca S. Calanni Foundation celebrates the life and legacy of Luca Calanni by following his example of kindness and caring. Our mission is to help all children experience the joys of participating in sports, camps, the arts and other activities that made Luca's light shine bright.
